**REMARKS**

A Transmittal Letter to the United States Designated/Elected Office (DO/EO/US) concerning a filing under 35 U.S.C. § 371 for the subject application was filed with the U.S. Patent and Trademark Office (USPTO) on March 4, 2005. The transmittal letter incorrectly identified the subject PCT application as International Application No. PCT/FR2003/02780 rather than as International Application No. PCT/FR2003/02480. This error was unintentional.

Applicants believe the Transmittal Letter and accompanying documents are sufficient to associate the national phase application as filed with the correct International Application Number. For example, the Transmittal Letter correctly identified the inventors (Valérie DE LA POTERIE, Karl PAYS, Thérèse DAUBIGE, Patrice STYCZEN, and Yohann BICHON), international filing date (August 6, 2003), and French priority date (September 6, 2002) of the subject application. Moreover, the Transmittal Letter enclosed (i) a copy of the cover page of International Publication No. WO 2004/022010 A1, which correctly identified the subject application as International Application No. PCT/FR2003/02480, and (ii) an English language translation of the specification of PCT/FR2003/02480. The latter was clearly labeled on the first page as corresponding to WO 2004/022010 and to PCT/FR2003/002480.

**CONCLUSION**

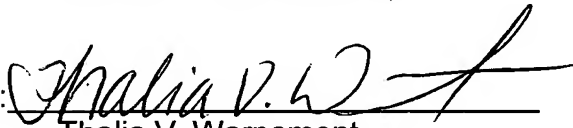

In view of the facts set forth above, Applicants respectfully submit that the national phase application as filed is sufficient to identify the correct International Application No. PCT/FR2003/02480. Applicants thus respectfully petition the Commissioner under 37 C.F.R. § 1.182 to correct the International Application Number of the subject application from PCT/FR2003/02780 to PCT/FR2003/02480.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,  
GARRETT & DUNNER, L.L.P.
